www.uianet.org

The **UIA World Forum of Mediation Centres** was created in 2001. It brings together the best commercial mediation practitioners and ADR centres from around the world, together with managers, academics, teachers, trainers, young practitioners, and all those interested in learning more about mediation.

The Forum takes place every 9 months in different countries around the world. It fosters the exchange of views on the development of ADR, enhancing knowledge, and best practices, giving new ideas, ensuring the best understanding of ADR, and learning from other cultures.

The worldwide health crisis caused by COVID-19 has driven us all to an unprecedented scenario and has led to no other alternative than to adapt ourselves to this situation. For the 2nd time **the Forum will take place virtually**.

This **29th Forum** promises to be **again very exceptional** because it will be the opportunity to gather experiences, ideas, observations about development of mediation and make comparison to enhance our knowledge and our practice. The virtual Forum with its **4 sessions** will be exciting as usual and with the same quality substantive panels.

Do not miss this opportunity to learn and enhance your knowledge and practice about mediation.

The 29th Forum will be an unforgettable international event. Practitioners from all around the world have already confirmed their participation.

Mark your diaries now, save the date and make sure to register!

We are looking forward to welcoming you to the virtual UIA 29th World Forum of Mediation Centres!

from 9:00 AM EDT to 10:30 AM EDT (New York)

In trade agreements such as the TCA, CETA, and the CAI, for which the EU and the People's Republic of China, recently concluded in principle the negotiations, provisions on dispute settlement are not of a merely ornamental nature, but form an indispensable part of the agreement. They typically provide mechanisms to resolve conflicts between the contracting parties. In addition, some trade agreements also provide mechanisms for investor-state dispute settlement. The speakers will discuss the various options and trends in regard of such conflict resolution mechanisms.

Classifications and the usage of stereotypes such as “Generation Z” cause the perception that potential cultural, social, or economic discrepancies between generations lead to conflicts between members of different generations.
